

The OFI Monthly

♦ February 2026 ♦

Connection is at the heart of everything we do!

February is a month rooted in connection — and that makes it the perfect time to spotlight one of the experiences we're most excited about: the Cultivating Connection Summit.

This summit was created with intention — to bring professionals, caregivers, leaders, and community partners together to strengthen relationships, deepen understanding, and reconnect with the “why” behind the work we do. In systems often shaped by urgency and burnout, connection becomes not just meaningful — it becomes essential.

At the Cultivating Connection Summit, you can expect powerful conversations, practical tools, and inspiring voices focused on trauma-informed practice, emotional intelligence, trust-based relationships, and the Science of Hope. Our goal is simple but impactful: to create space for learning, reflection, and renewed energy that supports real-world change.

As seats continue to fill, we encourage you to secure your spot and join us for a day centered on growth, collaboration, and forward movement.

Thank you for being part of our community and for the work you do every day to create safer, stronger, and more connected environments.

Let's cultivate connection — together.
